

Senior Product Designer specializing in complex enterprise systems and human-AI interaction. At Goldman Sachs, leading AI product design from 0→1 — focused on making AI outputs verifiable and trustworthy in high-stakes domains. Known for define product direction, design systems that scale, and sequence delivery around a long-term vision.

EXPERIENCE

GOLDMAN SACHS | Senior Product Designer

Dallas, TX. Jan 2023 – Present
Prev. Product Designer. Jul 2022 – Jan 2023

Building an AI-first platform from 0 to 1. Lead designer across core product areas, managing one design contractor.

- Led the **platform's first AI feature** — an exception-based review system for hundreds of critical data. Designed multi-source citation aggregation to verify AI-extracted values against exact document coordinates. Reduced wait time 98%, review time 40%; **full vision projects \$600K+ annual savings**.
- Redefined a fragmented multi-team process into a unified system workflow, consolidating 4 teams and 9 tools into a single guided experience. Reduced **time-to-completion from 14 days to 1 day**, increasing platform **onboarding by 4x**.
- Designed citation and confidence patterns for AI-extracted data, establishing **reusable AI trust components now standardized across 5 product areas** of the platform design system.
- Prototyping platform features directly in code using GitHub Copilot, translating user research into testable artifacts and reducing design-to-validation cycles.
- Shape upstream product decisions and vision, influence roadmap, refine production deliverables through cross-functional collaboration with product, engineering, SME and users.

FREELANCE | UX/UI Designer & Consultant

Houston, TX. Jan 2021 – Apr 2022

Designed operational and customer-facing workflows for early-stage startups. Key project (Rushable): Restaurant POS redesign, staff operations, and ordering experiences.

PROS | UI Designer

Houston, TX. Nov 2018 – Oct 2019

- Maintained and evolved **company design system**. Drove 20+ core components into full alignment across design, documentation and code, and standardized patterns across all product lines.
- **Delivered production-ready code** for UI enhancements in Agile sprint.

SUN SENTINEL | Interactive Designer

Fort Lauderdale, FL. Jun 2015 – Nov 2018

Built interactive experiences driving 20% increase in page views; built mobile-first templates that accelerated production by 50%.

Education

University of North Texas | M.A., Interaction Design(TA, Art Foundation)

Jun 2020 – Dec 2021

University of Miami | M.A., Multimedia Journalism

Aug 2013 – May 2015

Communication University of China | B.A., Advertising

Sep 2009 – Jun 2013

Skills

AI | AI prototyping, Github Copilot, Claude Code, Figma AI

Design | Human-AI interaction, AI UX patterns, Interaction design, User research, Service blueprint, Usability testing, Design system, Accessibility, Figma

Strategy | Systems thinking, Design strategy, Roadmap influence, Cross-functional collaboration

Technical | HTML, CSS, Git
